JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF
ARMY - NAVY - CIA

INSTALLATION:	Probable YAK 25-C Aircraft	BRIEF NO.:	JB-4-58
LOCATION:	Vladimirovka Airfield	DATE:	16 January 1958
B. E. NUMBER:	None	LAT.:	48° 18'N
WAC NUMBER:	235	LONG.:	46° 12'E

25X1D

REMARKS:

Eight probable Flashlight "C" (YAK 25-C) aircraft are parked on the south missile loading pad of the Airborne Missile Assembly and Loading Area at Vladimirovka Airfield. HTA-MCS-30-57 originally listed these aircraft as possible flashlights. These aircraft, one of which may have a nose probe, are presumed to be used in air-to-air missile tests.

The possible rocket aircraft, reported in HTA/JB-2/58, is also parked on this same pad.
